Who We Are

Quality Quest for Health of Illinois is a multi-stakeholder collaborative working together to transform healthcare in our state. We bring physicians, hospitals, health plans, employers, and patients and families together to focus on improving the quality and value of healthcare delivered in Illinois.

Our Mission

Our mission is to achieve exceptional patient service and healthier communities by serving as a catalyst for healthcare transformation.

Our Vision

Our vision is to become the region with the healthiest people and the highest value healthcare.

Quest Teams

Quest teams are composed of healthcare and business professionals and consumers who volunteer their time to research and address a specific healthcare topic. Our teams use 6 Sigma methodology to get at the heart of an issue and define real solutions.

Measurement and Reporting

Quest works with healthcare providers to collect data related to our projects and report performance information to the medical community and the public. The information helps providers compare their performance to peers and regional/national benchmarks and to improve patient care.

For more information, visit our website at www.qualityquest.org.
